Series 500

Policy Title: Student Accident Insurance, General and Athletic

Code Number: 504.8

A student accident insurance program may be offered to the parents of students in the District. The Superintendent, upon recommendation of the Director of Human Resources, is authorized to select an insurance company to issue such insurance policies for all District schools.

The Benefits Manager will review policies and the premium costs for the purpose of identifying the insurance company that provides the best insurance coverage at the lowest possible premium for the parents of students within the District. All District procedures shall be followed when soliciting and selecting an insurance carrier.

Purchase of district-sponsored student accident insurance shall be voluntary, with the entire cost paid by the student or parents. But in any case, the Board strongly recommends that students participating in interscholastic athletics be adequately insured.

Circulars will be available through each building at the beginning of the school year explaining the insurance plan.

Questions concerning the benefits or the process of applying for insurance or filing claims are to be addressed to the District Benefits Manager.
