## **EDUCATIONAL PROGRAMS**

### ***Series 600***

**Policy Title:        Innovative Pilot Programs**

**Code Number:      681.18**

The Board supports the development of thoughtful site-based approaches to instruction to effectively meet the diverse academic needs of students.

Site personnel are encouraged to research and investigate efficient and effective ways to develop and deliver an effective instructional program to students and to help all students reach high standards.

A two-year (minimum), and no more than three years, pilot of the innovation may shall be conducted when approved by the Assistant Superintendent

A "pilot" shall have clear instructional goals and a specific means of assessing the efficiency and effectiveness of whether the instructional goals have been achieved (in terms of student performance). Upon completion of the pilot and analyzation of the data, a substantiated recommendation shall be made in a written report to the superintendent regarding the pilot program.

First Adoption:        February 11, 1997  
Revision Adoption:    May 28, 2002
