Wellness coaching to help you change your behavior and improve your health.

Once you’ve received your biometric screening results and completed the Health Survey, you’ll have some suggested goals that may help improve your overall health and wellness. To help meet your goals, you can take part in wellness coaching, either online at your own pace or with a personal coach.

Complete a coaching program and get rewarded.¹

- You can call the wellness coach at 1-800-478-1057 or log in to myuhc.com® and click on the Health Resources tab to begin working on your personal health improvement plan.
- Your coach will work with you to track your progress and help you reach your goals. Allow an average of 2–5 months to complete the program. You can complete your coaching program online or over the phone.
- You earn a reward once you complete your coaching program.

Building on a foundation of effective coaching programs, wellness coaching provides:

- Live coaching
- Peer-to-peer discussions
- Online learning

Wellness coaches work with you to help identify health goals and personal strategies that meet your individual needs.
