Committee Update: The Committee expressed that they want to be even more involved in upcoming projects through the upcoming review of available sales tax dollars and order and recommendations for new construction projects. It was agreed that we would review the last minutes of this group (for the past couple of years), and include the Committee in two significant program reviews coming up this year in the District including:

1. The Boundary Area programmatic review
2. The Sales Tax Projects programmatic review

It was also decided that we would do all we could to grow the Committee by adding new members as soon as possible, and with School Board approval.

Tour of the Bryant Project: Dr. Gausman provided a comprehensive tour of the Bryant Elementary School project. This included details regarding classroom designations, mechanical systems review, and security features to the building.

The next Building Oversight Committee meeting will be held TBD.
