Elementary Boundary Adjustment

Dr. Brian Burnight
Boundary Adjustment Recommendations
Sioux City Community School District
Purpose

• The purpose of the boundary adjustments is to align attendance boundaries to balance school student capacity in elementary schools in the Sioux City Community School District (SCCSD).

• The new boundary lines will go into effect in the fall of 2022 with the incoming kindergarten classes.
In 2016 the District contracted with RSP Demographers who noted that specific elementary schools might need boundary adjustments.

Irving has nearly 800 students and is utilizing every current classroom space.

Leeds has approximately 700 students currently.

With the completion of Hunt and Bryant we have an opportunity to decrease student numbers at Irving and Leeds to balance school sizes.
Boundary Maps

Fall 2019 Through Spring 2022

Beginning Fall 2022
Hunt/Irving/Leeds Changes
Leeds/ Bryant Changes
